SUPPLEMENT TO
REPORT NO.

THIS IS UNEVALUATED INFORMATION

1. MAVAG Works, Ozd produces steel plates for Peyer és Géprvár (sic), at Budapest; pig iron and raw steel for MAVAG, at Budapest; and rolled steel for the USSR.
2. From September to December 1950, the fitting shop of the Rolling Stock Plant, Györ, was producing mobile field kitchens for the Hungarian Army. This shop is being converted into a foundry for the production of armor plates and turrets for tanks. The old foundry is being dismantled and removed to the USSR. The vacated workshops will be converted to gun shops. As a result of sabotage by the workers, the press shops were out of action in November and December. The aircraft workshops are being refitted.
3. The former gun factory, Györ, is located opposite the Györ-Ípartelepek railway station on the airfield side. The three buildings are guarded by military units and are used for storage of raw materials for the manufacture of gunpowder.
4. The coal mines at Tatabánya and Felsőlalla produce 1,100 car-loads daily.
5. Várpalota coal mine produces 80 car-loads daily.
6. Boys, 16-17 years old, are being trained as technicians in 6 - 8 months at Mohács. They then sign a declaration stating that they have voluntarily enlisted for work in the USSR. This is done without the consent of their parents. The first group of 100 boys left Mohács on 11 August 1950.
